

## Android I love Free Software Day library

Shows a dialog with informations about the [#ilovefs](#) day. You can add buttons to rate your app, write you a message and a donation button.

## Contribute

Fork this Lib and do a pull request. I will merge your changes back into the main project.

## Screenshot

## How to use

Add the following code to the activity you want to show the dialog:

```
ILoveFS ilfs = new ILoveFS(this, "mirakel@azapps.de", Mirakel.APK_NAME);
if (ilfs.isILFSDay()) {
    /* optional
    ilfs.donateListener = new DialogInterface.OnClickListener() {

        @Override
        public void onClick(DialogInterface dialog, int which) {
            Intent intent = new Intent(MainActivity.this,
                DonationsActivity.class);
            startActivity(intent);
        }
    };
    */
    ilfs.show();
}
```

Insert your data and it's ready.

## Build Example App with Gradle

Clone this repo in the root directory of your project.

Add the following lines to the end of your `build.gradle` (or add it directly to the dependencies section):

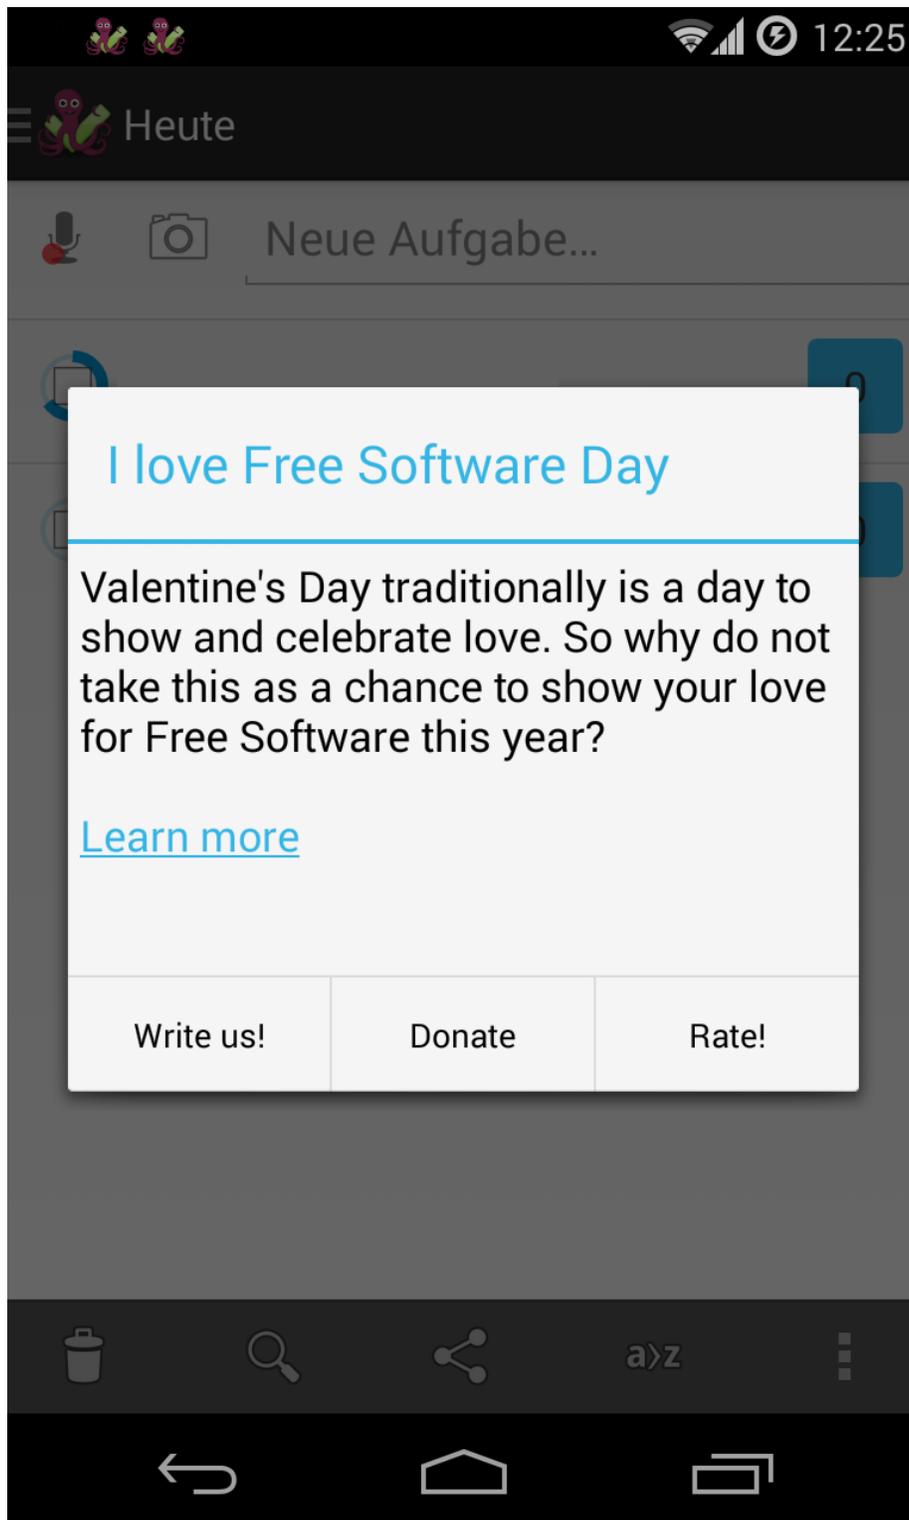

Figure 1: Screenshot

```
dependencies {
    compile project(':ilovefs-android')
}
```

Add the following line to the `settings.gradle`:

```
include 'ilovefs-android'
```

## Add the lib to your eclipse project

Just download the repo, create a new project from the source and add it to the build path (Project settings -> Java Build Path) and as an library (Project settings -> Android -> Library -> Add...)
